

Holmes County Farmer.

THURSDAY, MAY 31, 1860

LOCAL AND MISCELLANEOUS.

Court.
The District Court for this county will commence on the 5th day of July. But little business will be on hand.

A Raising.
It is proposed to have a great raising some of these days to raise "the first roller" in Holmes county for Lincoln.

The Fourth of July.
No movement has been made for a celebration of the ever glorious Fourth, at this place. If we are to have any celebration it is time something was done.

Reapers and Mowers.
The reader will please notice the advertisement on the outside of today's paper for Russell & Co's Reaper and Mower. The agent, Mr. Holderbaum, also sells a superior Wheat Drill manufactured by the above named firm.

Fruit.
The time is fast approaching for putting up fruit. Cherries, Blackberries, &c., will soon be ripe. Good glass jars are very nice for preserving fruit. A large stock of all sizes of the best quality of Fruit Jars just received, and now for sale, at Rait's Drug Store.

Turn Out.
It is to be hoped every Democrat in Harby township will turn out to the election on Saturday next. The opposition have not yet announced a candidate, and may not until the voting commences, but there is little doubt that they will have up some one. The safe way for the Democrats to all be at the polls, and then their triumph will be certain.

A Relief Found.
On yesterday a rail was found floating in Killbuck. Well, there is nothing strange about that, but upon it was found, cut with a knife, the following, "A. L. 1830." No doubts are expressed of its being one of the immortal 1,500 rails expy by Abraham Lincoln. It is proposed to have it encased in a glass case so that all the worshippers of humbuggy may do homage to it.

Atlantic Monthly.
The Atlantic Monthly, for June, contains a well considered paper on the "Future of American Railways," "Chess," "The Representative Art," "Pythagoras," "Japan," &c., &c. "The Professor's Story," by Dr. O. W. Holmes, is as interesting as ever. The Atlantic is the best Literary Magazine in the United States.

Money.
We are opposed to newspaper dunning, but we are desirous of informing our readers that we are decidedly "hard up." We have a large amount of money to pay between now and the 25th of June, and we are compelled to look to our subscribers for help. Nearly a year has passed since we took charge of the office and yet not one in five of our subscribers have paid us anything. It is but a dollar and a half for each copy, but when all together it makes a large sum for us. Friends, please give us a lift.

New Business House.
A company composed of Messrs. Volmer & Steinhauser of Akron, and Dyer & Taylor—the former of Akron, the latter of Ravenna—have leased Mr. Carey's warehouse at Millersburg for a term of years. They will engage in the business of buying wheat, wool and general produce. They are possessed of ample means, and are gentlemen of high character for integrity and excellent business qualifications, which will enable them to do an unlimited business. They are located in a section of country abounding in great resources, and should the harvest be abundant, as appearances now indicate, they will do a large business. We commend them to the people of Holmes county.—Mr. M. A. Spiegel will be their agent at that place. The company is very fortunate in securing his services, as his experience and agreeable manners are certain guarantees of success anywhere.—Summit Democrat.

Robbery.
Considerable excitement was raised in this place on Tuesday last, by a report of a robbery having been committed in this immediate neighborhood, on Monday evening last. As we hear it, Henry Gamber, of salt-creek township, was riding on horseback from Benton, to his brother's residence, some three miles North of Millersburg. Shortly after leaving Benton a large man, wearing heavy black whiskers, and riding a dark colored horse, overtook him, and commenced a conversation.—After riding together some distance Mr. Gamber left the main road to call at Mr. Gordon's. He had not traveled far until he was again overtaken by the stranger, who took the liberty to ask his business. Gamber thoughtlessly answered that he was collecting. The two riding together, Gamber's horse stumbled; thinking the animal lame, he looked down to see whether a shoe was loose when the stranger struck him a heavy blow on the back of the head which fell him to the ground. He lay insensible for some time, and on regaining consciousness he found his pocket book, containing about \$75, missing. On Tuesday he came to town to secure the stranger's arrest, but no traces of him has yet been had.

Molasses, Honey, &c.
An exchange says they have discovered molasses mines on Sugar Creek, in Stark County.—That is decidedly ahead of the great discoveries of oil in many places. They are sweeter, and are held by a much less slippery tenure. Some people of Holmes county who are determined to be fully up with this progressive age in extracting the valuables from mother earth have made extensive discoveries of milk along Honey run. They are now digging for honey with promising prospects; having already discovered a quantity of comb.—We might further add: Mr. Rice, one of the gentlemanly engineers on our railroad recently took water at Salt Creek, and after his engine was cooled off at this place two barrels and a half of beautiful white salt was taken from the boiler. It is thought there would have been more but it was immediately after a rise when the saline water was strongly diluted. It is the intention of the railroad company to erect a water tank at Salt Creek, and they expect in future to make the running expenses of the road by manufacturing salt. Some people may not be disposed to believe quite all of this but we can assure them that it is just as true as most of the reports given of the discoveries of oil &c.

The Crops.
Intelligence in regard to the crops from all directions of the Union, except some portions of the extreme West, are generally of a cheering character. In Ohio as far as we can learn, everything looks favorable, and the prospect is now good for large crops. Throughout the Northwest the late rains have been of incalculable advantage to the growing crops, and should the weather continue as favorable as it now is, no fears need be entertained that the harvest which is to follow will far exceed in abundance its predecessors for many years. From Iowa the news is most cheering. The rice harvest there is expected, will be ripe as early as June in some parts of the State. In Indiana no unfavorable reports have yet reached

us in our exchange. In Michigan everything is looking remarkably well. In most of the Southern States the grain is ripening beautifully, and give promise of abundant harvest, but in Kentucky short crops are predicted. The fly is doing great damage there and wheat appears to be a weak and sickly growth. A Louisville paper says that the crop of wheat in Kentucky will fall far short of that of last year. In Virginia also there are numerous complaints of the ravages of insects in some of the most fertile districts. Too prospect for fruits in the regions named above are generally considered good, and it is thought that all danger from frost is now past.

MARRIED.—On Tuesday, May 29th, in Millersburg, by Rev. U. J. Kneiser, Mr. PETER LISO and Mrs. MARGARET PIPER.
At the same day, in the House of bride's father, by the same, Mr. DANIEL DUGER and Miss CAROLINE NEWTON.
The large and delicious cake that accompanied the above notice was thankfully received. Life seems all bright before them; may no storms or gathering tempests ever obscure in gloom its promised joys; no sorrow's piercing thorn ever mingle with the flow'rets opening bloom.

LATEST FOREIGN NEWS.

Arrival of the Arabia.
BALTIMORE, May 28.—The Royal mail steamship Arabia, Capt. Stone, from Liverpool, arrived at this port on the 26th inst., has arrived at this port.

Intelligence relative to Garibaldi's expedition is still conflicting, but the reports generally concur in stating that he is making good progress. Some say that he had captured the most important points in Sicily, except Messina and Palermo. After his landing at Marsala, the Neapolitan vessels bombarded that town without a warning, and the British vessels intervened for the protection of English residents. The important announcement was made by Madrid that the King of Naples had applied for foreign intervention. Among other questionable rumors, was one that a treaty offensive and defensive had been concluded between Naples, Rome, Austria, and Prussia. The troops were dispirited, and tumultuous manifestations were taking place. The Royal troops were packing up all their jewelry and valuables, and strong indications that a great insurrection is looked for.

At the latest dates, Garibaldi's forces were moving on Palermo. Great disasters.—The British government has issued a proclamation against the enlistment for the Pope in Ireland, but does not interfere in the subscriptions for the Sicilian insurgents, the law officers of the crown not regarding it as illegal.—The English funds were very lowly under commercial politics, but there was more steadiness at the close.

THE CHAMBERLAIN.
LONDON, Saturday.—Bell's Life of this morning announces that a meeting took place between Sayers and Heman at that office, yesterday, to discuss measures for terminating the dispute between them as to the possession of the Chamberlain's Belt. It was ultimately agreed that the Chamberlain's Belt, exact counterparts of the one so much coveted, should be made, the money for the purchase to be raised by public subscription; each of the candidates was to have the list of names to be held by his opponent. The old belt will remain possession of the proprietor of Bell's Life, to be fought for by whoever may aspire to the honor of wearing it. Sayers has engaged to retire from the ring.

TRAVEL.—Theodore Parker died at Florence on the 10th.

It was reported that Lamorelie had made a first movement, with the Papal troops, and 5,000 Piedmontese troops had embarked from Genoa to check him.

It was positively asserted that the French army of Rome had received orders to evacuate that city.

It is said that the Austrian government had stated that the British Ambassador to Russia, on the receipt of Gortschakoff's communication relative to Turkey, lodged a formal protest against it. But this was not so. He only received the communication under reserve, by stating that he intended to refer it to his government for instructions in the matter. A late dispatch says that England would not interfere.

SECOND DISPATCH.
A letter from Garibaldi explains that the steamers used by him were taken possession of forcibly, and not chartered. Garibaldi had issued proclamations to the Romans and Neapolitans, calling them to revolt.

Palermo dispatches of the 13th, say in five churches at the termination of mass, shouts of "Viva Garibaldi!" were raised. The number of 10,000 assembled. The police were unable to disperse them, and the troops were called out and fired on the people, killing several and wounding many. The police were called out, and the appearance of placards in favor of the Ex Grand Duke. There were rumors of the intention of an attempt at the recovery of his power. The government was strengthened and the National Guard called out.

The Russian Grand Duke Nicholas was on a visit to the Emperor Napoleon.

A report that France had offered pecuniary indemnity to Switzerland was unfounded. Austria refuses to admit Piedmont to the Conference on the ground that Casorati had declared she intended to make no part of the proposed treaty between France and Switzerland. The Papal troops are continually concentrating at Gubbio. It is stated that the date is fixed for the French evacuation of Rome, and the first detachment will leave shortly.

The King of Naples had subscribed a million francs to the Papal loan. The Prussian chambers had passed the government project for the war credit 315 and 21. Russia is said to have collected at Nicholas a large number of transports.

SPECIAL NOTICES.
RAILROAD TIME TABLES.

C. & C. R. R.
Trains leave Millersburg:
Express—Leave Millersburg: 7:30 A. M.
Mail—Leave Millersburg: 8:30 P. M.
A. M. at Millersburg: 7:30 A. M.
